THE SOURCE FOR THE HOSPITALITY INDUSTRY

## THE SOURCE FOR THE HOSPITALITY INDUSTRY

With innovation at the core of the business, we are the market leader in the industry and are renowned for exceptional service, unrivalled range and the best value.

The Eat & Drink catalogue brings together the full Utopia offering arranged into clearly defined sections for ease of use.

### TABLEWARE

We offer an extensive range of tableware designed for the Hospitality market with a significant emphasis on new product development and creative food presentation.

### GLASSWARE

We are the market leading glass specialist delivering the most innovation with a range covering every market need; our expertise covers every aspect of glassware with a specialisation in toughened glass and decoration.

### CUTLERY

We are the UK's market leader in cutlery with an extensive collection covering all market needs from traditional to the latest contemporary designs.

### BARWARE

Developed with the mixologist in mind, our barware adds theatre, creativity and flair along with an array classic essentials including straws and skewers.

### PLASTIC

We have a comprehensive range of polycarbonate solutions focussed on quality, style and creativity.

### FOODSERVICE EQUIPMENT

A range of practical food service equipment essentials delivering quality, functionality and exceptional value.

A selection of our partners are:

# looking forward

As we look ahead to 2023, we reflect on the challenges and uncertainties of the past year and are grateful for your continued support and loyalty. Despite the difficulties of 2022, we are proud to say that we have emerged stronger and more focused than ever on delivering industry-leading products and service to our customers. We are excited to announce that we will be launching the most products in over a decade, with a focus on innovation and design. We believe that by introducing a wide range of new and exciting products, we can help you stay ahead of the competition and succeed in your business.

In addition to our focus on product innovation, we are also committed to building on our already industry-leading e-commerce platform, making it even easier for you to discover and purchase the products you need. We understand that convenience and efficiency are key for our customers, and we are constantly looking for ways to improve and streamline the shopping experience.

We have also worked hard to shore up our logistics in order to provide stability and reliability for the year ahead. We understand that our industry relies on a stable supply chain, and we are committed to doing everything we can to ensure that our products continue to reach you in a timely and efficient manner.

We hope that you will take the time to explore this catalogue and discover our new products. We look forward to working with you and helping you succeed in the year ahead.

utopia

We hold in excess of 30,000 pallets under one roof, preventing double handling of goods and giving constant visibility of all stock using our state of the art warehouse management system.

15 dock levellers mean there is no need to unload containers outside, bringing benefits in terms of speed, less product damage, and a better and cleaner working environment.

It facilitates our drive to improve customer service, increasing the speed of response, packaging integrity and picking accuracy.

It allows partner distributors to expand their businesses with our range of original and stylish products.

Our online platform has a host of features to make our customers lives' easier: From detailed product information and downloads to bespoke catalogue and quote creations. We offer end to end ordering, all your important financial and order documents all in one place and API connectivity to your website. It is a constant area of innovation to give our customers the best possible service.

Utopia prides itself on having two exquisitely presented showrooms in Chesterfield and London, both home to our full collection of tableware. Chesterfield is the home of our flagship showroom. This is mirrored with our central London showroom in the heart of Holborn. Our showrooms are built with distributor partners and end users in mind, and are designed to inspire

and excite. Showroom viewings are by appointment only - to make an appointment to view one of our showrooms, contact us today.

We supply the market by understanding it better than anyone else, we work hard to make sure that we have the right products for the right task in every situation.

Simply Inspired Service.

# DECORATION

We aim to provide best in class decorating and give our customers infinite possibilities through our state of the art processes. Our Utopia By You division offers expertise to help design, process and deliver your decoration needs. We are excited for you to experience the possibilities that Utopia By You can give you.

# CAPABILITIES

## Nucleation

Utopia Tableware are world leaders in laser nucleation, and can offer every level of nucleation to our most powerful Activator Max and Activator Performance nucleation, through to completely bespoke nucleation, unique to each customer.

Nucleation involves the etching of the bottom of the glass and is designed to increase the effervescence of the product and maintain the head of the drink, as well as improving the appearance of carbonated soft drinks when served.

## Bespoke Shape & Design

We understand the need for bespoke items and offer a full bespoke product service. Utopia will design, re-design and re-envision until we have it absolutely right. We take care over practicality and ergonomics as well as aesthetics working closely with the customer every step of the way. We then manage the manufacturing process closely with our suppliers, inspecting and controlling the products we produce. Utopia nurtures every bespoke request from initial idea, to shape and style, all the way through to the end product, delivering satisfaction every time.

Designs for both glass and ceramics can be made by our design team from a brief, or artwork can be supplied for us to work with. Minimum orders are required on most decorations.

## Toughened Glass

Fully Toughened Glassware has been strengthened across its entire body making the glass resistant to impact damage at all points. This makes the glass stronger than regular annealed glass. When Toughened Glass does finally break, it will break into small fragments making it impossible to cause serious lacerations. This makes Fully Toughened Glassware the obvious choice for outlets following license stipulations or those seeking to prevent glass related violence.

## Laser Lining and UKCA - CE Stamping

Utopia has in-house verification status, meaning we can government stamp and line our glassware, satisfying all UK and European legal hospitality requirements. Choose lined glassware instead of additional measures, with different options available and with low volume commitment, we can produce to all your required needs.

“ Our Tableware offering continues to evolve with innovative and directional collections, new materials, textures and colours that combine to make this our most extensive and versatile offering so far. Any venue can be given a real identity with distinct, original and inventive serves. ”

# CONTENTS

“We offer an extensive range of tableware designed for the Hospitality market with a significant emphasis on new product development and creative food presentation.”

“Utopia are the UK's market leader in cutlery, with an extensive collection covering all market needs from traditional, to the latest contemporary designs.”

“Single use plastics are a frivolous reason to add to the global pollution problem, we need to focus on improving the way we consume and serve to be as environmentally friendly as possible.”

“Plastic drinkware offers a stylish and practical alternative to glassware. It is a durable and lightweight material that is resistant to breakage, making it a safer choice for use in public settings. Our plastic drinkware is versatile and suitable for use in a variety of settings, including bars, restaurants, and events.”

## ICON GUIDE

This key to our icons will help you identify them as you use our catalogue, and select the right product for you.

### NEW FOR 2023

Look out for our new products being launched for 2023

### CRYSTAL

A selection of Utopia's glassware ranges are made from fine crystal giving clarity and finer rims.

### PASABAHCE PRODUCT

Many of our glassware ranges are from our exclusive supply partner Pasabahce, these glassware items offer exceptional quality and design.

### ACTIVATOR MAX

A laser nucleation technology to further enhance the appearance of carbonated drinks.

### STACKING

Items that are designed to stack when space is at a premium.

### TOUGHENED RIM

Many Utopia Glassware items have strengthened rims to reduce chipping and breakage.

### POLYCARBONATE

Polycarbonate is a very strong and virtually unbreakable plastic, the strongest plastic of all.

### 5 YEAR CHIPPING GUARANTEE

Utopia's 5 year edge chipping guarantee on a selection of ceramic products allows for free of charge replacement of chipped products.

### RIM AND FOOT GUARANTEE

Utopia's rim & foot guarantee on a selection of products allows for free of charge replacement of breakages to the rim or foot of glassware.

### POLYSTYRENE

Not as strong as Polycarbonate, Polystyrene items are often used for shot glasses where strength is not as important.

### CUTLERY PERSONALISATION

Eternum cutlery can be personalised through colour coating, stamping, etching, laser engraving and diamond engraving.

### 100% RECYCLED

Made from 100% Recycled Glass.

### SAN

Styreneacrylonitrile is stronger than polystyrene and can take a high amount of usage but will break under heavy pressure.

### UMAMI

Japanese Artisan Tableware

### TOUGHENED GLASS

Fully toughened glassware withstands greater impact, making the glass stronger therefore increasing longevity, when it finally does break it will break into small blunt pieces increasing safety. Ideal for outlets with glass related violence or those with specific license stipulations.

### LINED & UKCA

Many of our glassware items can be government stamped and lined to satisfy all European and UK legal hospitality requirements. As the UK is no longer a member of the EU the certification stamp used within the UK has changed from CE to UKCA. Existing CE stock can continue to be used for the life of the glass

### EN13432 ACCREDITATION

This icon denotes that the straw has EN12432 accreditation. This certification focusses on compost-ability, making sure Utopia's non-metallic paper straws adhere to strict standards concerning biodegrading so they only have a positive impact on the environment.

# UMAMI

JAPANESE  
ARTISAN

## UMAMI

Our "Umami" collection is infused with the true spirit of the East, sourced from an abundance of Japanese pottery producers, we have brought together a collection rich in heritage and authenticity. The ranges sourced are individually crafted to produce items that can be

used for traditional oriental serves or to add depth and texture to more contemporary dishes.

Look out for the Umami logo throughout our tableware section for these exclusively crafted ranges.

# tableware

We offer an extensive range of tableware designed for the Hospitality market with a significant emphasis on new product development and creative food presentation.

Included in this section are  
the following:

Murra

Coloured Tableware

Anton Black Fine China

Titan

Pure White

Melamine Tableware & Buffetware

NMC

# murra

Utopia is proud to present the Murra collection, part of our partnership with NMC, an international sourcing platform that finds the best quality products at the most effective price points. The collection is inspired by the luxurious ceramic vessels created by ancient Roman artisans using semi-precious materials. The Murra collection features five colourways, each with at least 25 unique items, all made from vitrified porcelain and hand-finished with reactive glazes. These items are designed to withstand daily use and add individuality to any venue through their personalized presentation of food. At Utopia, we are dedicated to providing high-quality products and carefully consider all aspects of sourcing in order to bring the best to our customers. The Murra collection is a testament to this commitment.

Selected for its improved performance, this collection is ideal for use with our Acacia Presentation Stand, see page 218.

# Traditional Terracotta ESTRELLA FIESTA

Terracotta is naturally fragile and should be handled with care. It is also naturally porous and submerging in water should be avoided.

**Fiesta Yellow Bowl**  
**M15050** 7" (18cm) 29.5oz (84cl) Box of 6  
**M15052** 8.5" (22cm) 44oz (125cl) Box of 6

  - CT8117 5.5" (14cm) Grey Box of 12
  - CT8118 5.5" (14cm) Blue Box of 12
  - CT8119 5.5" (14cm) Green Box of 12
  - CT8120 5.5" (14cm) Black Box of 12
  - CT8133 5.5" (14cm) Brown Box of 12
  - CT8142 5.5" (14cm) Red Box of 12
  - CT8151 5.5" (14cm) Cream Box of 12
- Fits Cappuccino Cup

# TULIP CUP

Perfect for americano serves, longer filter coffee and speciality tea serves. The shape brings the flavour through the cup but the compact structure keeps the temperature locked in. The taller profile holds the crema for perfect presentation

## Barista Tulip Cup

- CT8101 6.25oz (18cl) White Box of 12
- CT8102 6.25oz (18cl) Grey Box of 12
- CT8103 6.25oz (18cl) Blue Box of 12
- CT8104 6.25oz (18cl) Green Box of 12
- CT8105 6.25oz (18cl) Black Box of 12

  - CT8142 5.5" (14cm) Red Box of 12
  - CT8151 5.5" (14cm) Cream Box of 12
- Fits Tulip Cup

# FLAT WHITE CUP

Similar to the cappuccino but unique in specific ways. A taller, smaller cup due to less foam and bringing more flavour to the coffee. Perfect for Flat White or Double Ristretto

## Barista Flat White Cup

- CT8096** 5.5oz (16cl) White Box of 12
- CT8097** 5.5oz (16cl) Grey Box of 12
- CT8098** 5.5oz (16cl) Blue Box of 12

  - **CT8142** 5.5" (14cm) Red Box of 12
  - **CT8151** 5.5" (14cm) Cream Box of 12
- Fits Flat White Cup

# ESPRESSO CUP

Perfect for single or double espresso. The small size and thick walls help lock in temperature, with the narrow base concentrating the flavour. All this combines to give the real aroma and proper presentation of an espresso.

## Espresso Cup

- CT8106** 2.75oz (8cl) White Box of 12
- CT8107** 2.75oz (8cl) Grey Box of 12

# titan

The Titan collection has been created to offer practical and durable solutions without compromising superb presentation.

A comprehensive range of SuperVitrified Porcelain Hotelware has been designed to cover all of the market's requirements from dining through to service and oven to tableware.

Produced using the finest of raw materials, Titan fully conforms to British Hotelware Standard BS4034, which demands the highest standards of strength and water absorption resistance.

Walled Plates add a pared back, contemporary feel to any serve. These **Titan** plates stack beautifully making them as practical as they are appealing.

# pure white

Pure White is a range of fully vitrified economy porcelain, developed in recognition of the market's need for a cost effective tableware collection.

The range is accredited with British Hotelware Standard BS4034, demonstrating a high resistance to water absorption, fully microwave and dishwasher safe and designed to withstand the rigours of any catering environment.

# TRIBAL BOARDS & ORIGIN FIR SLABS

**Tribal** laser cut Acacia wood boards feature textured geometric patterns, bringing a subtle hint of the Savannah to the table. Warm and inviting they offer extra depth to any number of dishes.

**Origin Fir Slabs** offer the ultimate in rustic presentation. Crafted from one piece of Fir, from the root of the tree, every piece is truly individual and unique, with no two pieces the same.

**Tribal Handled Wood**  
JMP806 14 x 8" (35 x 20cm) Box of 6

**Tribal Handled Wood**

**Embossment**

The cutlery is embossed and then the reverse side is polished to create a perfect finish. This method of personalisation is suitable for simple logos.

The minimum order quantity is 600 pieces spread across any number of shapes in the Eternum range that you select.

**Etching**

This method of personalisation can reproduce complex logos, the detail would only have to be simplified if elements became illegible due to the size that was required for the item. Etching provides very sharp definition with a black appearance.

The minimum order quantity for this is only 480 pieces spread across any number of shapes in the Eternum range that you select.

**Laser & Diamond Engraving**

This method of personalisation produces exact replicas of logos, except for highly intricate designs.

The minimum order quantity for this style of personalisation is only 480 pieces spread across any number of shapes in the Eternum range that you select.

**Be individual with coloured cutlery**

Any of the Eternum collections can be PVD coated in your choice of Gold, Bronze or Anthracite colours. The coating is Food Safe and is scratch resistant.

With a minimum order quantity of 480 pieces spread across any number of shapes in a range, this option is accessible to all.

**Gold**

**Bronze**

# crystal glassware

The Crystal glassware range from Utopia features collections from the worlds leading manufacturers, including Nude, and Rona. Collated to represent the pinnacle of design excellence, from cutting edge contemporary pieces through to more traditional suites, each perfectly honed to enhance the presentation of wines and spirits.

Included in this section are  
the following:

Stem Zero

Aram

Tulipa

BEAUTIFULLY  
STRONG

Stem Zero

Introducing Stem Zero made with 'Ion Shielding Technology'.  
Making it the world's toughest, yet finest lead free crystal glass.  
You could say it is beautifully strong.

What if it was possible to create a glass so fine, so elegant, so exquisite, that it could almost make you feel as if it didn't exist?

That nothing came between you and the enjoyment of your favourite wine.

### **It couldn't be done, surely?**

The designers at NUDE asked themselves the same question, but after a huge amount of work and dedication have come up with the answer.

### **It is called... Stem Zero**

Stem Zero is a simple and elegant range of highly refined glassware made to satisfy the most discerning wine connoisseur.

The glass is so fine and so light that it defies belief. Yet it is strong and reliable, suiting all manner of occasions, both formal and informal.

Such is the remarkable quality of the glass that it creates a sensation of weightlessness, that the wine is being held by an invisible force, allowing you to savour the aroma and taste of wine in a way that, until now, was considered unimaginable.

The result is a glass that feels no more than a whisper, a kiss on the lips, encouraging you to enjoy wine to the full.

### **Some look tough but are so fragile.**

### **Some look fragile but tougher than any other...**

The new Stem Zero with Ion Shielding Technology reinforces the previously delicate collection, making it twice as strong and flexible as other handmade glasses of similar thinness.

# TECHNOLOGY

## Bowl Impact Test

**35% stronger**

Test is performed according to the standards below: DIN 52295 / Testing of glass – Pendulum impact test EN 12980:2000 / Materials and articles in contact with foodstuffs. Non-metallic articles for catering and industrial use. Method of test for the determination of impact resistance.

## Stem Impact Test

**2x stronger**

Test is performed according to the standards below: DIN 52295 / Testing of glass – Pendulum impact test EN 12980:2000 / Materials and articles in contact with foodstuffs. Non-metallic articles for catering and industrial use. Method of test for the determination of impact resistance.

## Free Fall Test

(In-house method):

Glass is released for a free fall from the height of 28 cm.

## Bending Test

(In house method): Up to 130

Glass is bent at a certain angle from the top of the bowl keeping the stem fixed.

## Dishwasher Safety Test Up to 2.000 cycles

DIN 10511 "commercial dishwashing with glass washing machines - hygiene requirements, type testing" Water hardness: 0-1 dH Temperature of detergent tank: 55 0C. Temperature of rinse agent: 65 0C. Contact time per cycle: 120s. Detergent: Industrial type, pH < 12,6.

## MANA: MANCHESTER'S FIRST MICHELIN STAR RESTAURANT SINCE 1977

"Over the years I have been fortunate to experience some of the finest wines and stemware on the planet.

Six or so months ago I discovered the Nude brand, with some stunning crystal glassware and in particular their beautiful Stem Zero stemware.

To fully appreciate the experience, the finest wines have to be tasted from the finest glass. For me, Stem Zero by Nude is the

best crystal I have used. The combination of refinement and durability make Stem Zero perfect for a high quality restaurant like Mana.

Everyone of our guests has a wine pairing and frequently comment on the glass and enquire about its origin and availability.

For me, every wine tastes better in Stem Zero"

Mana, Michelin Star 2019 since 2019

# SAVAGE

"What I love most about the collaboration is the simple and delicate design means there is as little as possible between drink and the glass, with exquisitely thin rim, the liquid becomes the star".

Remy Savage,  
award winning mixologist

# beer glasses

A wide selection of beer glasses covering stemware, tumblers and tankards suitable for all types of beers and environments. Our range includes fine quality crystal glasses through to unique, fully toughened beer shapes such as Malmo, Bob, Nevis and Draft.

# TOUGHENED GLASSES

Fully Toughened glassware has been strengthened across its entire body making the glass resistant to impact damage at all points.

When Toughened glass does break, it will break into small fragments making it impossible to cause serious lacerations.

# ACTIVATOR MAX

Activator Max involves enhanced nucleation of the glass. This is the etching of the bottom of the glass and is designed to increase the effervescence of the product and maintain the head of the drink, as well as improving the appearance of beverages when served.

# toughened glass

The hectic hospitality environment means glassware needs to withstand wear and tear while still adding style. Our unrivalled range of toughened glassware includes a wide range of tumblers, stemware and exclusive shapes.

When toughened glass finally does break it will break into small fragments making it the obvious choice for outlets following license stipulations or those seeking to prevent glass related violence.

Our featured ranges:  
**Moda Toughened Gin P 405**  
**Montez Cocktail P 407**  
**Malmo P 418**

Our exclusive Beer Collections:  
**Bob & Nevis P 416**  
**Aspen P 417**

# TOUGHENED GLASSWARE

---

Fully toughened glassware has been strengthened across its entire body making the glass resistant to damage at all points. This makes the glass stronger than regular annealed glass. When toughened glass does break it will break into small fragments making it impossible to cause serious lacerations.

Increased durability reduces replenishment, saving money.

Toughened glass is treated by using extreme heat and then cooling rapidly which balances the tension stored in the glass core.

The glass tension makes the glass strong and much more resistant to a mechanical and thermal shock.

Tension gives safe break characteristics, meaning once broken no shards or sharp edges are left

Toughening is across the whole glass, including the stem for safety

A refined Champagne served delicately chilled or a fizz filled Prosecco to get the party started, whatever the occasion there's a sparkling wine that's perfect for it

# BUBBLES

A celebration calls for  
bubbles and bubbles  
call for the right glass.  
Tall and elegant or  
fabulously curvaceous,  
the choice is yours.  
Be Inspired.

# green earth

BY THE YEAR 2050, UNLESS WE ACT NOW THERE  
WILL BE MORE PLASTIC THAN FISH IN THE SEA.

Single use plastics are a frivolous reason to add to the global pollution problem,  
we need to focus on improving the way we consume and serve  
to make it as environmentally friendly as possible.

Included in this section are  
the following:

Straws

Stirrers

Skewers

Microparticles of plastics are being absorbed by fish that are then eaten by humans

The amount of plastic generated globally is estimated to be nearly 6.3 billion tonnes

Plastic can take up to 500 years to decompose

INNOVATION HAS ALWAYS BEEN AT THE CORE OF UTOPIA'S OFFERING, AND AS WE HAVE SEEN AND BEEN PART OF THE WAVE OF THE MOVEMENT TOWARDS ECO-FRIENDLY ALTERNATIVES TO SINGLE USE ITEMS WE SAW A FIT FOR WHAT WE CAN OFFER.

Straws and stirrers when in plastic were seen as a bland commodity, adding little value to the serve and even less to the environment, but with other materials there is the opportunity to differentiate and add value to the serve through the patterns, colour and variations that can be achieved.

Our range is focused on bringing the best product into the market, meeting all the environmental needs whilst giving our customers a way to create innovative serves through our extensive range of straws, skewers and stirrers.

#### WHAT ARE WE DOING TO HELP?

AFTER MONTHS OF CONSULTATIONS OUR RANGE OF PAPER STRAWS HAVE NOW RECEIVED: EN13432:2000 ACCREDITATION

This certification specifically focuses on compostability making sure Utopia's non metallic paper straws adhere to strict standards concerning biodegrading so they only have a positive impact on the environment. In other words they actually give something back to the earth when their useful life is over.

ALL OUR WOODEN STIRRERS AND PAPERS HAVE BEEN FSC SOURCED

# PRODUCT TESTING

We believe in testing all our products to our own as well as industry standards. This is to make sure all our products are best in the market for how and why they are used.

## Paper straws are tested against:

- Liquid absorption of different acidities and sugars
- Strength and diameter testing
- Durability with contact to varying liquids
- Ink leakage into liquid after set periods of time

We strive to make sure that our straws that enter the market match the level of quality we expect from all Utopia products.

## ACTIONS WE HAVE TAKEN

For our paper and wood products, it is key that they are compostable, biodegradable and food safe, without this they are not fulfilling the need to be environmentally friendly and improve the position from single-use plastics. We rigorously test our products to make sure they adhere to these requirements.

For paper to be environmentally friendly it needs to adhere to the Forest Stewardship Council certification, which gives customers the option to choose forest products like paper and wood that have been sourced in an environmentally-friendly, socially responsible and economically viable manner. FSC was founded in 1993 in response to concerns about deforestation.

All our wooden stirrers and paper straws have been FSC sourced.

After months of consultations our range of paper straws have now received EN13432:2000 accreditation. This certification specifically focuses on compostability, making sure Utopia's non-metallic paper straws adhere to strict standards concerning biodegrading so they only have a positive impact on the environment. In other words they actually give something back to the earth when their useful life is over.

### Biodegradability...

is a material's capacity to be converted into carbon dioxide (CO<sub>2</sub>) through the action of micro-organisms, under the same process occurring in natural waste.

- Disintegrability, namely fragmentation and invisibility in the final compost (absence of visual contamination).
- Absence of negative effects on the composting process.
- Almost complete absence of heavy metals and the absence of negative effects on compost quality

### Compostability...

is the capacity of an organic material to be transformed into compost through the composting process. This process exploits the biodegradability of the initial organic materials to transform them into a finished product called compost. This allows for the waste to add back to the planet rather than detract from it.

# PAPER STRAWS

All 8" Paper Straws have a bore of 6mm

# plastic drinkware

Plastic drinkware provides a great alternative to Glassware. Drink related violence is an ever growing area of concern for Police Forces and local licensing authorities. Utopia has focused on providing a safer option, without compromising on style.

Included in this section are  
the following:

Lucent

Diamond

# lucent plastic

Produced using the highest quality polycarbonate Lucent provides a crystal clear finish rivalling glassware, virtually unbreakable this range adds class and safety all at once. If premium polycarbonate is what you need, Lucent has it covered.

The practicality of polycarbonate reaches new heights with the stunning **Ascot** flute. A beautiful addition to indoor & outside events.

**Ascot Flute**  
**HD0413** 8.75oz (26cl) H: 265mm  
 Box of 6

# VINTAGE MARTINI PC

Perfect for the classic touch, this Martini glass gives texture and shape to the serve whilst being ultra clear, safe and durable.

**Vintage Martini**  
HD0400 8.3oz (23.5cl) H: 179mm  
Box of 6

## PC SOMMELIER

**Sommelier Goblet**  
HD0837 20oz (57cl) H: 248mm Box of 12

**Sommelier Wine**  
HD0836 15oz (43cl) H: 232mm Box of 12

**Sommelier Flute**  
HD0835 8oz (23cl) H: 246mm Box of 12

Combining the appearance of traditional cut crystal with the practicality of polycarbonate **Gatsby** is perfect for indoor & outside events.

**Gatsby Wine**  
**HD0201** 10.25oz (29cl) H: 195mm Box of 12

**Gatsby Flute**  
**HD0202** 7oz (20cl) H: 225mm Box of 12

**Gatsby Hiball**  
**HD0203** 16oz (46cl) H: 145mm Box of 12

**Gatsby Champagne Bucket**  
**HD0404** 184oz (523.5cl) H: 270mm Box of 1

**Gatsby Carafe**  
**HD0200** 1.1L H: 255mm Box of 6

**Gatsby Old Fashioned**  
**HD0204** 10.25oz (29cl) H: 95mm Box of 12

Cocktail glasses have never been more practical. **Eden** is super stylish and virtually unbreakable.

**Osborne Wine**  
**HD0416** 11.5oz (33cl) H: 210mm  
 Box of 6

**Osborne Wine**  
**HD0417** 15oz (44cl) H: 222mm  
 Box of 6

**Eden Coupe**  
**HD0821** 10oz (28cl) H: 170mm Box of 12

**Eden Shimmer Gin Glass**  
**HD0409** 24oz (68cl) H: 200mm Box of 6

**Eden Gin Glass**  
**HD0822** 24oz (68cl) H: 200mm Box of 12

Crisp vertical optics and outstanding clarity make **Paradise** a stunning alternative when glass isn't the answer.

# care advice & information

The first taste is with your eyes! So to make sure you get the best return from the products you select for your outlet, we have included advice on care and usage to make sure that longevity in service and appearance is enhanced. This will make sure you receive the maximum benefit from your investment in Tableware.

# CERAMICS

---

## Storing:

Placing rubber or plastic mats on large stainless steel surfaces usually found in industrial kitchens can help reduce metal marking to ceramics.

Rubber or plastic mats can also be placed in stacking areas, trolleys or sinks to further reduce the chance of metal marking.

Replace or repair any plastic coated racks that may have become worn and the metal underneath exposed, as this again could cause damage to your ceramics.

## Using:

Don't scrape off leftovers – wipe off with a paper towel or a plastic/rubber scraper.

Utopia ceramics are suitable for microwave use, however be advised that any decorated item that includes metal will not be microwave safe.

Use cutlery that is of a high grade steel as a minimum requirement, as some cutlery in use today is made from low grade steel, which being soft in nature increases the chance of metal marking.

Using metal utensils against ceramics can also cause metal marking, try to keep this to a minimum or use plastic utensils.

## Washing:

Utopia's products are specially designed to withstand the rigours of the Foodservice and Hospitality trade, including automatic dishwashing found widely in most businesses.

To ensure the quality level of the product it is important to take note of the following:

Strictly follow recommended dishwashing procedures set out by the manufacturer and use the correct dose application of the detergent.

The use of an approved detergent is recommended.

For effective cleaning, we recommend that the dishwashing temperature and the final rinse be set between 55 to 60°C. Operating at higher temperature levels in order to wash crockery 'properly' is a definite case of overkill and detrimental to all tableware.

Repair or replace any plastic coated metal in the dishwasher that may have worn away as this may result in metal marking.

Stack ceramics separately to other crockery in the dishwasher such as cutlery or pans and ensure items do not vibrate against each other during the cycle.

Overdosing on detergent or using excessively high temperatures will cause deterioration to the glazed finish or damage any decoration on the product.

## Metal Marking

Metal marking occurs when a ceramic item comes into contact with metal surfaces or utensils, which can cause metal tracing to be left on the ceramic item due to certain types of steel being softer than the glaze of the ceramic.

Despite the unsightly appearance of metal marking, it is not a cause for concern as it can be easily removed by the application of a gentle household non-abrasive cleaner:

# MELAMINE

---

The correct handling and care of your Melamine buffet and tableware will enhance the appearance and longevity of the product in use. The following guide will assist you.

Handle melamine dinnerware like any quality dinnerware.

Use only plastic pads or plastic type bristle to remove dried food.

Pre-soak melamine products, if necessary, in a high quality pre-soak dishwashing detergent.

Do not use melamine products in an oven.

Do not use melamine products in a microwave.

Do not use harsh or abrasive cleaners, steel wool, or metal scouring pads.

Do not use chlorine bleach.

Melamine is a thermosetting plastic that is strong, lightweight and hard with the look and feel of ceramic product. It is highly break and scratch resistant, but it is NOT 100% unbreakable, it can be scratched and broken.

Melamine is often used for dinnerware, mixing bowls and laminated counter tops because it resists acids, alkalis and most food stains.

Melamine is hard and smooth and can withstand some fairly warm temperatures, but it does absorb heat and will soften if it gets too hot. While melamine is perfectly safe when it comes in contact with warm temperatures, melamine is not microwavable.

In general, melamine products are not designed to withstand temperatures that exceed 100°C and should not be submerged in boiling water or placed in the oven.

Also, be sure to avoid exposure to hot objects or prolonged exposure to boiling water. Melamine is suitable for use over a bain-marie as the water is circa 70°C, to hold food above a temperature of 60°C.

Melamine is dishwasher safe (as long as the water temperature does not exceed the 100°C guidelines). Scouring powder should not be used, as it will scratch the surface, also never use chlorine bleach on melamine buffetware.

Stainless Steel, though its name suggests otherwise, it is not completely 'mark proof'. It is much more resistant to staining or marking than other metals however contact with certain substances will start the process that leads to staining and pitting. Simple measure to reduce this and help maintain the quality of your cutlery:

### Storing:

Never store cutlery where it can become damp, as this can cause corrosion.

Store out of direct heat, as this can cause the metal to mark.

Never leave cutlery with food on as many corrosive substances are found in food, such as acids, like vinegar and lemon juice, mineral salts found in tap water, fats and meat juices.

Other corrosive substances are bleach and harsh detergents, so ensure your cutlery is not left to soak.

### Washing:

Utopia's products are specially designed to withstand the rigours of the Foodservice and Hospitality trade, including automatic dishwashing found widely in most businesses. To ensure the quality level of the product it is important to take note of the following:

When pre-rinsing cutlery ensure all food debris is removed before being washed.

Follow the manufacturer's instructions, particularly in relation to adding dishwasher salt as excess salt can cause corrosion.

Always wash cutlery immediately, never leaving it with food debris present.

It is advisable to place cutlery vertically into dishwashers with the head up; and not too tightly packed together; this assists the water flow at the end of the cycle.

Remove cutlery immediately after washing/dry cycle is finished and wipe over with a dry towel. If the cutlery is left to cool in the dishwasher; trace mineral salts and the dishwasher salt residue will settle on the cutlery in the moist atmosphere and start the pitting and staining process.

Never mix stainless steel and silver plated cutlery in the same basket of the dishwasher the chemical reaction between detergent and steel can cause the silver plate to mark.

Do not use the rinse and hold cycle on dishwashers with cutlery this will leave the cutlery to soak in water which can be damaging.

Wood handled cutlery is not suitable for cleaning in a dishwasher.

For PVD coated cutlery such as Gold extra care should be taken when washing.

### Types of Metal – What is Stainless Steel?

Choosing the right type of cutlery for what you need it for can be confusing. Utopia have tried to simplify this by splitting the ranges into different types of stainless steel 18/10 and 18/0. These ranges can be further identified through the colour coded collections.

Stainless Steel is an iron and chromium alloy containing more than 11% chromium. There are three types of stainless steel used to make cutlery:

**18/10** – This is used for contemporary cutlery except knives; it contains 16-18% Chromium and 8-10% Nickel. This is the only steel that can guarantee against corrosion when properly cared for:

AISI Code	Generic	Chrome	Nickel	Others	Subtotal	Balance
304	18/10 or 18/8	16–18%	8–10%	3%	29–33%	Iron

**18/0** – This steel is used for value cutlery e.g. Parish, Economy or some value options of Contemporary cutlery. Due to the high % of chromium, it is more resistant than 13/10 but not as resistant as 18/10.

AISI Code	Generic	Chrome	Nickel	Others	Subtotal	Balance
430	18/0	16–18%	-	2	18-20%	Iron

**13/0 or Knife Steel** – This steel is used to make knives, as it can be hardened to create a sharp edge. The quality used is AISI 420, containing 12-14% chromium. This is the least corrosion resistant form of stainless steel.

AISI Code	Generic	Chrome	Nickel	Others	Subtotal	Balance
420	Knife Steel	12–14%	-	2	14-16%	Iron

# GLASSWARE

---

## **Storing:**

Do not put cutlery into glasses.

Do not stack glasses that have not been designed to stack.

## **Using:**

Do not pick up glasses in clusters.

Be careful to avoid contact with the beer tap.

Do not put cold liquids into hot or warm glasses straight from the dishwasher as this can cause cracks.

Pre-heat glasses for hot drinks by running them under the hot tap.

## **Washing:**

Utopia's products are specially designed to withstand the rigours of the Foodservice and Hospitality trade, including automatic glass washers found widely in most businesses. To ensure the quality level of the product it is important to take note of the following:

Always wash new glasses before use.

Always use a non-caustic detergent as caustic detergents affect head retention, etch the glass and give the glass a shadowy tinge.

Water on the premises should be stored at 60°C. If water is stored at a higher temperature e.g. 85°C, even when this is reduced because of travelling to the machine, it could still be high enough to bake debris onto the glass.

Coffee cups should never be washed in a glass washing machine, as coffee dregs can taint the water and stain the glasses – this also applies to drinks that contain cream.

If cracks or chips are found in glasses, they should be discarded immediately and never put in the dishwasher.

Gold decorated glassware is suitable for handwash only.

# PLASTIC BARWARE

Improved working practices for the use of Polycarbonates will extend the life of the product:

- Polycarbonate drink ware is supplied with the verified CA Mark or Lined and Stamped exactly like Glassware.
- Polycarbonate Barware is dishwasher safe to a temperature of 60°C.
- When using glass washers, it has been suggested that the use of detergent without rinse aid is preferred.
- To maintain the product in its best condition, it is recommended that a low temperature wash cycle below 60°C for both wash and rinse temperature is used. The combination of detergents and raised temperatures can lead to environmental stress cracking in the plastic surface. If washer temperatures are above this then it is recommended to hand wash the plastic barware.
- It is important to make sure that the Polycarbonates are not rubbing together during the rinse cycle in a glass washer.
- It is safe to use Liquid Renovate. This will enhance the visual presentation of the product where needed.
- Regular checking of Polycarbonates to assess scratching is needed so as to offer the customer a perfect drink.
- It is important that Polycarbonates are not stacked tightly together as the inside of the product will scratch.
- Polycarbonates are quite often found on the floor and on hard floors they will scratch. Where possible Polycarbonates should not be left on the floor.
- Polycarbonate is a tough transparent thermoplastic that has many applications, which demand high performance properties.

Polycarbonate drink ware is almost indestructible, hard and

rigid and in many cases virtually identical to glass. It is the preferred product for Police Forces and Local Licensing Authorities where drink related violence is an area of concern.

Although the product is virtually unbreakable it is subject to considerable wear and tear, unlike glass, which would simply break and then be replaced, regular checking of polycarbonates to assess scratching is needed as to offer the customer a perfect drink.

Utopia Tableware supply Plastic Barware in four different types of plastic:

- Polystyrene – our plastics shots are Polystyrene, these are dishwasher safe up to 100 washes.
- SAN (Styreneacrylonitrile) is stronger than Polystyrene and can take a high amount of usage but will break under heavy pressure. This product is glass washer proof.
- Polycarbonate – is a very strong and virtually unbreakable plastic, the strongest plastic of all. Our polycarbonate glassware is glass washer safe up to 500 washes.
- MMS – is a transparent copolymerization primarily composed of methyl methacrylate (MMA) and styrene monomer (SM). This is glass washer safe up to 100 washes.

## Gastronorm sizing guide:

Food pans available in standard Gastronorm sizes.

# CREATIVE TABLE

---

Creative Table includes an array of products all of which require different care to ensure you keep them at their best. See below for information on how to look after you Creative Table products.

## **Estrella Traditional Terracotta:**

- Suitable for traditional ovens, hobs, microwaves & freezers.
- Terracotta is naturally fragile and should be handled with care.
- Terracotta is naturally porous, soaking in water should be avoided
- Terracotta is suitable as oven to tableware.

## **Fuji:** (as above)

- However, with increased strength and durability

## **Copper Presentation Serveware:**

- Please be aware copper will naturally oxidise over time.
- To maintain an optimum finish, hand washing is recommended.
- Using metal scourers or abrasive cleaners will affect the finish of your copper serve ware, to avoid this, wash in hot water straight after use with a soft cleaning sponge.

## **Stainless Steel Presentation Items/Barware:**

- Not suitable for cooking and should be used as presentation only.
- Suitable for dishwashers
- Not suitable for ovens or microwaves.
- Galvanised items should always be used with presentation papers.
- Never leave in a damp environment for prolonged periods of time.

## **Wire Baskets & Presentation Papers:**

- Not suitable for cooking and should be used as presentation only.
- Suitable for dishwashers
- Not suitable for ovens or microwaves
- Presentation papers are 100% biodegradable and can be discarded in food waste.

## **Slate/Granite:**

- Being natural stones – our slate and granite items may vary slightly in size and texture.
- The characteristics of slate are that the edges can naturally chip and create sharp points – care must be taken when handling these items.
- To clean wipe down with a damp cloth and mild detergent.
- For Slate – any scratches can be treated with natural oil and this should be followed from time to time to keep the product looking its best.

## **Cast Iron:**

- Cast Iron is ideal for use in the oven and on stoves and withstands temperatures up to 260°C.
- Always use heat protective wear when handling the products – handles will become extremely hot.
- Never place hot items directly onto unprotected surfaces – it is recommended to use the Acacia Wooden Boards that are available with all Utopia Cast Iron pieces.
- For care of the Cast Iron Wooden Boards – follow the Acacia Wooden Board/Tray' care advice.
- Always use Plastic/Wooden utensils – metal may damage the surface of the enamel.
- Abrasive scourers may also damage the enamel surface – to remove tough residue soak in hot soapy water.
- Not recommended for dishwashers
- Ensure completely dry before storing or stacking as items left wet may be prone to rusting.

## **Bento Boxes:**

- Not suitable for dishwashers, hand wash only.
- Not suitable for oven or microwave use.
- Abrasive scourers may damage the surface of the item – use a soft sponge and soak in hot soapy water for tougher residue.

## **Natural Woods:**

- Store away from direct heat sources and direct sunlight.
- Hand wash in warm soapy water
- Do not soak in water
- Dry immediately
- Not dishwasher safe
- Bamboo drink paddles are suitable for glass washers – always follow the recommended dishwashing procedures outlined by the manufacturer and use the correct dose application of detergent.
- Sourced from a sustainable wood source
- Darwin, Acacia, Olive and Fir Wood will vary significantly in size and shape as these are natural cuts of wood.
- Restore Natural Woods with a wiping of olive oil.

## **Enamel:**

- Oven proof and Dishwasher safe
- For best results, after use soak in warm water; then wash gently with a liquid detergent
- Do not use abrasive cleaning pads or powders
- Items will chip if handled roughly

## **Trays:**

- Plastic Black Non-Slip Trays:
- Always ensure trays are stacked on flat surfaces to eliminate accidental damage.
- Not suitable for dishwashers – wipe down with a clean damp cloth after each use.
- Do not leave submerged in water.
- Do not stack whilst damp.
- Do not overload trays, may cause accidental damage or injury.

## **Fast Food Trays:**

- Always ensure trays are stacked on flat surfaces to eliminate accidental damage.
- Fast Food Trays are suitable for dishwashers – always follow the recommended dishwashing procedures outlined by the manufacturer and use the correct dose application of detergent.
- Fast Food Trays have stacking lugs to accelerate drying and can therefore be stacked straight after washing without prior drying.
- Surface can become slippery when wet, extra caution needed.
- Always stack separately to other crockery in the dishwasher to ensure items do not damage each other in the cycle.
